WAS NOT FIT TO DO HER WORK

Dreadful Condition of Mrs. Fullerton's Health Remedied by Lydia E. Pinkham's Vegetable Compound

Clearfield, Pa.—"I cannot begin to tell you how much Lydia E. Pinkham's Vegetable Compound has helped me in every way. Before taking it I couldn't stand on my feet without pains running all through my whole body from my head down just like threads pulling. I was not fit to do any work. My mother got me to try the Vegetable Compound and I have found great benefit, and I not only recommend it for such troubles, but to build up the whole system. I have used it for most everything that gets wrong with me. When I begin to feel nervous and irritable I begin to stop in and get a bottle of the Vegetable Compound if I haven't got one in the house. It gives a fine appetite and makes a new woman of me. You may use this testimonial in my own town or anywhere else, and I will answer any letters I receive."—Mrs. RUSH FULLERTON, 625 S. 2nd Street, Clearfield, Pa.

Lower Richardson Lake

Ice left the lakes of Maine two weeks earlier than usual. Norway Lake cleared April 14th and Lower Richardson, April 27th.

I arrived here Thursday, the 30th. The road from Andover to South Arm was

good barring one mud-hole which gave trouble. By vigorous pushing and coaxing the car got through it without chains. I. W. Waite and Reg Dinsmore did the pushing and prying while I stood by, an interested spectator. This was the only thing out of the usual. Some banks of snow were seen by the roadside after passing the height of land.

Many cords of birch have been cut the past winter which will be taken to Andover by motor trucks later on. Herbert Campbell, who had been operating here, had broken camp and was moving out. He had four horses hitched to a long bodied cart loaded with woods equipment.

Eleanor Gibson, Lewiston.
Chas. H. Coburn, Bethel.
Henry Lessard, Lewiston.
Mrs. Elizabeth Lessard, Lewiston.
Ted Faine, Auburn.
Anna and Lena Ward, Portland.
Margaret Dyer, Portland.
The seventeen persons above are of the official household and are supposed to remain here for the season.
Guides, who took part in the ceremonies of getting the flag up were: Isaac Walter Waite, Norway.
Reg. S. Dinsmore, Norway.
Walter C. Smith, Norway.

also a tractor. He stood-by and was willing to pull our car out of the mud if it were necessary.

Burgess & Grover, South Arm camps were not open but were a few days later. The water is much higher than a year ago. Maybe it lacked 4 feet of being full and with two gates up at Upper Dam it will not be long in filling. The lake on Thursday, May 7, was within a foot of high water mark and one gate was raised to fill Pond-in-the-River for log driving.

Capt. E. F. Coburn and five or six others have been here since April 1st. They came on the ice with a pair of

Edward W. Brown (Pete), Lewiston Bill Morton of Mechanic Falls was at his camp on the Point and watched operations from a distance. The writer also took part at a safe distance. Capt. Coburn has commenced on his 32nd season here and his wife one year less. They have seen the camps grow from accommodating a few people to a few less than a hundred. There are a dozen or more log and frame camps besides the main house. These camps have from 2 to 4 beds, open fireplaces, hot and cold water with bath and electric lights. There are two motor boats and several "kickers" of different makes. The

horses from Andover. The ice had left the shore and the water was about four feet deep so Fred Hutchins says. They got their goods and women folks ashore without wetting them very much but not so with the poor horses. They tied ropes around their necks and pulled them off the ice and into the water.

The ice house was filled and the wood worked up. One hundred cords of wood is fitted for the stoves. It is nicely fired or piled up, all but a portion of it that has tipped over. Among the wood is a nice lot of drift cedar which is excellent for whittling. I am collecting a stock for next winter. Much of it is very choice.

Chief Game Warden Torrey has appointed Ned Stewart of Andover as warden for this vicinity. He is on the job and has examined our fishing licenses. Several parties have been held up for want of local licenses and among them were S. M. Brown and D. G. Brown of South Paris. They forgot to take li-

garage at South Arm houses a dozen cars. During the first week I managed to get 22 fish, 14 salmon and 8 trout. I put a notch in the tails of all except two and returned them to the water. The first fish, a trout of about two pounds, was caught again three days later and made the seventeenth in the score. It rose the second time nearly in the same place as it did the first time.

All of the fish were taken but one on a fly called "Ike's Last Resort," and at the inlet of Pond-in-the-River. No water except leakage is coming through the dam and the current is not sufficient to bring the fish up from the Pond.

When the Lower Richardson Lake is full, logs will be shired and some fish will come into the river pools. Rapid River has a fall of some four to six hundred feet in six miles before it gets to Umbagog Lake and it contains many noted pools. Capt. Coburn is to put a cut to carry fishermen to and from the pools.

variety of weather. The water system froze up for the second time since I came here. Mud-worms, robins and frogs have ceased singing. Rain, hail and snow with strong wind and shine come intermittently. Variety such as was expected after the recent thunder shower. A huge pile of green wood has stowed and stowed in the fireplace which Walter says gives out about as much heat as a fire in the bottom of a smokestack. I whipped the Julet Pool with heavy woolen mittens on my hands for more than an hour and got nothing. Mr. Thayer of Boston also assisted with some results. Balance of the day was devoted to whittling and writing. The boat arrived at 7:45 p. m. bringing reinforcements to the extent of seven sports.

N. N. Thayer and wife of Boston arrived May 8th. They have been coming to this camp for the past 20 years. With the exception of 5 years, Mr. Thayer has

quantity of logs is to be driven. This is said to be the last cut that will be made on these waters for the next ten years. Coe, Pingree & Co. says no more stumpage will be sold for that length of time, hence the Brown Co. are getting out their logs instead of letting them stay in the lake this season as was planned last winter. The driving crew is here and three pair of big horses, and many of the boom of logs are in place. Quick work will be made of getting the logs in the Umbagog. During and after the drive it is expected there will be great fishing.

The camps on B Pond have been bought by E. F. Coburn and great fishing is expected there.

Kahly Miller, the dam keeper is sick. He has a severe stomach trouble. Dr. Howard of Rumford prescribed for him and a few days later Dr. W. B. Somerville of Andover was called. Albert Allen son of the late George Allen, will tend the dam during Mr. Miller's sickness.

Frank Allen has come from Upton and will tend the Pond dam during the driving period.

Thursday, the 7th, was filled with a

five more boats. A dozen and more sports are due to be here before the tenth. Several truck loads of supplies have been put in the store house in the last few days, also the sows have come. The pair of horses has been here a month and the deer have been here all winter. A half dozen are seen nearly every night feeding in the pasture.

Radio intelligence reaches me that Mr. Bancroft of Norway has caught a six pound fish—a togo or "mud-digger" from Crystal Lake, Harrison. I trust it is so and that later I may be personally informed of the variety of the fly it rose to.

The Julet Pool is 3-4 mile from camp I make two round trips each day, hence exercise to the extent of three miles daily.

Arrivals May 7th. Mr. and Mrs. H. Briggs, Augusta; Mr. and Mrs. Burleigh Martin, Augusta; Mr. and Mrs. R. Sanford, Fall River, Mass.; Dr. A. V. Pierce, New Bedford, Mass.

John Deere KC Cultivator

Drive into the field, stay on the seat and make every adjustment with handy levers.

A perfect "set" made quickly—Lower the rigs with the master lever. Space them the desired distance with the spread lever—they spread equally at front and back. Secure the desired depth with the depth lever—shovels enter ground level

and continue level as they are lowered.

Deeper or shallower adjustment of front or rear shovels can be made with the tilting lever—a big advantage when cultivating up or down slope.

Quick dodge can be made on crooked rows—pressure on the foot lever guides the wheels and shifts the rigs.

Get the Big Yield!

From the first day those tender corn plants push through the soil into sight, you look anxiously down the corn row and picture in your mind's eye the harvest beyond. What that harvest will be depends much on your cultivator and how you use it. Do you like to use it? Is it easily controlled?

McCormick-Deering Cultivators

Long ago our McCormick-Deering cultivators went through the experimental stage. As worth-while improvements were discovered they were adopted. Today—wherever you go, you hear them praised for their good work; their easy operation; their convenient adjustments; and the comfort they provide the user.

You should go to the store of the McCormick-Deering dealer and look them over. Samples are set up there for you. Climb into the seats, shift the pedals, handle the levers. Then let the dealer quote you the low prices. You will quickly agree that these popular cultivators give real value for the money, and these are days when real value counts big.

BETHEL

Mrs. Eunice Smith Hopkins. Funeral services for Mrs. Eunice Smith Hopkins, wife of George Hopkins, were held at the home of her parents, Mr. and Mrs. E. H. Smith, Vernon Street, Thursday afternoon at 2 o'clock. She leaves her husband and infant son, father, mother, three sisters and two brothers and many other relatives and friends who feel deeply the loss of her young life. Interment was at Riverside Cemetery, Bethel, May 4.

Mrs. A. H. Hutchinson. Mrs. A. H. Hutchinson passed away at the home of her daughter, Mrs. Fred Douglas, Sunday evening. Mrs. Hutchinson had been in poor health for some time. She and her family have been residents of Bethel for many years. She is survived by her husband, who is a Civil War veteran, two sons, a daughter and several grandchildren. A grateful wife and mother, a kind neighbor, always mindful of others has gone.

Funeral services were held Wednesday, conducted by the Rev. C. B. Oliver. Burial was at Riverside Cemetery.

Mrs. Evelyn Chandler Briggs visited relatives in South Paris, recently. Ernest Walker has returned from St. Petersburg, Fla.

Tom Vachon, who has been spending the winter in the village where they spent the winter and early spring.

The people gave the boys of the conference held here from last week a warm and hearty welcome. The boys of today are the citizens of tomorrow and such gatherings inspire honesty, intelligence and thoughtfulness which are stepping stones to usefulness in all walks of life, and a desire to "give to the world the best that you can."

Mr. Thompson will build a house on a lot recently purchased of Fred Douglas on Church St.

The play "Little Women" given by the Seniors at Olean II was gratifying as much work has been done by the class and their assistants. Miss Ruth Hewing directed the play. Miss Virginia directed the play. The pupils brought their own books and sometimes there was a lack of books in the class.

ALMA PENDEXTER HAYDEN CONTINUES HER REMINISCENCES OF NORWAY SCHOOL DAYS

Years ago, in one of my English classes, we had been reading Macbeth and when I asked for quotations one boy very innocently gave this: "After his wife's full sleep, he sleeps well." I rather conveying the idea that some man had been sitting up nights to care for his sick wife and, now that her fever had abated, he was making up his sleep. I wouldn't have missed that quotation (?) for anything! It has given me a great many good laughs since then.

I have received some very pleasant replies from my letter to the Advertiser and also some clippings from the Lewiston Journal, showing it was copied in that paper.

One of my pupils who graduated from Norway the first year of my teaching there, is now a Judge in Baltimore, Morrell N. Packard by name. He has forged ahead and made himself a name and a high standing in that city, where he has a law office in the Calvary Bldg. His brother Roscoe also lives in the same city, being noted as the director of a famous band. I have very pleasant recollections of these two brothers who were always gentlemanly and desirous of gaining some knowledge from their studies. Their success is well earned.

A few years ago I saw some dainty little subject for a camera scene, done by none other than George Noyes. I have often wished he would place some of them on exhibition in Norway, when I am in town as I would like to see them again. I think I have seen the sketches being on exhibition in New York. George has been something of a Naturalist, in the out door life which he enjoys. There is everything in leading the life you like. In school there were one or two studies George found interesting. He endured the other studies patiently and no doubt was longing to be "over the hills and far away" where he learned his lessons in the solitude of nature.

Another artist from the ranks of my pupils is the photographer, Miss Minnie Lohby, who has been in Norway and carried on her work successfully. She never lets you take an awkward position. With a glance of her appraising eye, she sees the fault and remedies it. In each subject for the camera, she brings out the best. Her pictures are kind to you. She is a true artist.

When I was Secretary of the Social Service League at Niagara Falls, I was pleased to receive a card from Henry Fawcett with a picture of the building in which he teaches. I have read of his advancement with great pleasure. When he visited me, the pupils brought their own books and sometimes there was a lack of books in the class.

No Increase in the Price of Firestone FULL-SIZE GUM-DIPPED BALLOONS

The extra quality built in by the extra process of Gum-Dipping, the economy of these wonderful tires and the added mileage obtained from them during the past two years, has created such a large demand that over 75% of Firestone's mammoth production is now Balloon Gum-Dipped Cords.

This has greatly increased the total sales volume and the huge Firestone factories are now working on a 24-hour schedule to supply the demand.

This large volume, produced under the most economical tire manufacturing methods, permits Firestone to sell these extra-process Full-Size Balloons at no extra cost to car owners. And this in the face of greatly advanced cost for crude rubber brought about by the operation of the British Rubber Restriction Act.

Gum-Dipping means longer
mileage—greater economy—at
no extra cost to you!

Enjoy the safety, economy
and comfort of Balloon Gum-
Dipped Cords this summer. Let
us equip your car now at low
cost—with liberal allowance for
your old tires.
